DETAILED ACTION

1. The amendment filed 10/31/05 has been entered. Claims 11-12 are pending in the application.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

3. Claims 11 and 12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 11 and 12, as now amended, recite that the white ink layer has a different adhesive property than the two-component adhesive such that adhesion between the adhesive and the transparent polyethylene terephthalate film is stronger than between the white ink and the transparent polyethylene terephthalate film, however, the instant disclosure at the time of filing does not teach or suggest these new adhesion limitations.

Response to Arguments

4. Applicant's arguments with respect to claims 11 and 12 have been considered but are moot in view of the new ground(s) of rejection. As recited above, the Examiner takes the position that the new limitations added by the Applicant in the amendment filed 10/31/05 are not fully supported by the original disclosure at the time of filing and hence constitute new matter as recited above. The Examiner also notes that the Applicant did not provide the required statement with the filed amendment regarding the introduction of no new matter and further did not

Art Unit: 1773

provide any indication of where in the original specification, one would find support for the added adhesion limitations.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
